COMMERCIAL INTELLIGENCE

MONDAY EVENING, AUGUST 23.

WITH the exception of a decline of ¼ in Consols there is nothing in Reuter's closing telegrams of Saturday to call for any remark.

The Bank of Bombay return for the week ending on the 21st inst. shows a further increase of 14¼ lakhs in the Cash Balance, so that a reduction in the Bank's rates of discount may be confidently looked for during the week. The trade of the port is unusually dull even for the time of the year, and the demand for accommodation from that quarter shows a falling off of 18 lakhs when compared with the last return. The changes during the week have been as follows :—

Public Deposits at Head Office.....	Dec.	Rs.	6,16,507
Do Branches.....	Dec.		1,28,615
Other Deposits	Inc.		5,72,468
Cash Credits on security of G.P. &c.	Dec.		47 010
Loans on security of Govt. Paper	Dec.		3,74 363
Bills Discounted	Dec.		14,56,781
Government Securities	Inc.		306 989
Cash Balance with Correspondents	Inc.		125 145
Cash and Currency Notes	Inc.		13,21,759

STERLING EXCHANGE has been very weak to-day, and with a very small number of bills offering closes with a downward tendency. Quotations are as follows, viz :—

Bank Bills, on demand...	...1s. 8¾d.		per Re.
„ Telegraphic	1s 8 3-32d.		„
„ 3 months' sight..	1s. 8¼d.		„
Credits 3 „	...1s. 8⅝d.		„
Documents 3 „	...1s. 8 13-32d.		„
rance 3 „	...2·15½		„

GOVERNMENT PAPER.—There has been some enquiry for Four-and-a-half per cent. and a good amount has been placed at quotations, but other descriptions are quiet. We quote :—

Four per cent	Rs. 96¼
Fours-and-a-half.....	104½
Port Trust Bonds	94½
Municipal 5 per cent. Loan.	103½

SHARES.—The market is weak for most description, but especially for Spinning and Weaving Companies, influenced no doubt by the advance in Cotton and also by the unfavourable Crop accounts from the Deccan and other large consuming districts. A decline of Rs. 50 has taken place in Alliance, Rs. 10 in Dhurumsys, Rs. 15 in Empress, Rs. 15 in Hindustan, Rs. 10 in Jewraz Balloo, Rs. 10 in Madras United, Rs. 15 in Manockjee Petits, Rs. 5 in Mazagons, Rs. 20 in Morarjees, Rs. 25 in New Great Eastern, R. 10 in Oriental, Rs. 10 in Prince of Wales, Rs. 10 in Sholapore Mills. Among Press Companies Berars have declined Rs. 5 and Mofussils Rs. 10 share.

COTTON.—The advance in the price of Mid. Uplands and the great firmness reported in the Liverpool market has led to some demand for New Cotton here, and to-day there have been buyers of Akote and M. G. Broach for March delivery at Rs. 210 and Rs. 228 per candy, but no sellers within Rs. 2 per candy of these prices. For Old Cotton there is little enquiry excepting for local consumption, but dealers are firm at our quotations :—

Good Comrawattee	Rs.	210	per candy.
F. G. F. „	„	2·4	„
G. F. „	„	200	„
Good Dholera.....	„	206	„
G. F. „	„	199	„
G. F. Compts.....	„	195	„
Good S. G. Dharwar.....	„	210	„

LINSEED is unchanged at Rs. 6-11 per cwt.

RAPESED is dull at Rs. 6 per cwt.

WHEAT is quiet, with little enquiry, but the price is maintained at Rs. 32 per candy for White and Rs. 27 to Rs. 28 per candy for Red.

FREIGHTS continue very depressed at 20s. per ton for Liverpool, and 30s. per ton (paid here at par) for the Adriatic and Mediterranean ports.

IMPORTS.—The markets for both Manchester Goods and Metals remain excessively quiet.

MESSRS. C. MARCKS and Co., of Bombay and Poona, have the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has APPOINTED them AGENTS for the sale of his CELEBRATED PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. Menist makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes ; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. Menist's Non-pressure Eye-glasses have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure, or leaving any mark when removed.

His 12 lens "Duchesse" are all Achromatic and as powerful as Field Glasses.

His Field, Marine and Opera Glasses may be used for hours without causing the eyes to ache.

Mr. Menist has left instruments with Messrs. C. Marcks and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

Messrs. C. MARCKS & Co., for the convenience of clients who may not wish to purchase Mr. Menist's glasses, have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames, and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

TUESDAY, AUGUST 24, 1880.

THE first letter from our Special Correspondent with General Phayre's relieving force, which we publish this morning, will be read with great interest. It gives a very vivid idea of the aspect of affairs at Quetta, where the General and his staff are organising the advance on Kandahar. At Quetta it appears nothing more is authentically known than in Bombay as to the circumstances which led to the loss of the battle of Khushki Nakhud. But two fugitives belonging to Jacob's Rifles state that firing lasted from ten o'clock till noon, the enemy's cannon killing many officers and men. Then Ayub's cavalry and the Ghazis charged the left, where the Grenadiers were posted, Jacob's Rifles being next to them in the centre, and the 66th on the right. The "whole force was thrown in disorder upon the 66th," and the men fled for their lives. Our correspondent notes that our cavalry did not make a counter-charge, and refers significantly to the fact that their list of killed was surprisingly small. Did they refuse to charge ? Or was the omission due to want of orders ? For information on this point we must still wait. But it is obviously desirable that the sooner the exact details can be obtained and made public the better it will be for all who did their duty on that melancholy occasion, for at present every corps present on the field is exposed in turn to suspicions which may be confounded and are very cruel when they are unjust. With regard to the general aspect of the campaign our correspondent, while sharing fully the well founded convi

STEAMER REPORT.

GALLE, Aug. 23, 6-30 A.M.

The P. and O. Steamer Pekin from China arrived.

The offertory at the Byculla Church next Sunday will be given to the Bombay Military Relief Fund.

Volunteers who are anxious to resume their target practice will be glad to hear that 200 rifles have been returned to head-quarters, and the remainder will be ready shortly. Perhaps the obliging Acting Adjutant, Captain Tennent, will now try to arrange for occasional practice, say on two evenings a week, at the Colaba butts, pending the recovery of the Coorla range from the monsoon influences which render it useless for four months of the year.

There is much to be said in favour of the prayer contained in a memorial which is being signed for presentation to H. E. the Governor, for greater facilities for sea-bathing in Bombay. A salt water plunge bath is very refreshing and invigorating, and in a place like Bombay, affording great natural facilities for its indulgence, the luxury ought to be within reach of every body. But, practically, this is not the case. There is an excellent bath at Breach Candy, which has recently been renovated and improved; but as the memorial referred to points out, its position, so far out of the town, is virtually a bar against a large portion of the inhabitants taking advantage of it. A considerable number of Europeans reside in the Fort, and for them a visit to the Breach Candy bath means an outlay of about two rupees, so that a swim becomes a luxury many are unable to afford. Bathing in Back Bay is at present prohibited, and would not be comfortable if it were allowed under present circumstances. We are not quite sure, too, whether bathers in Back Bay might not run a risk of molestation by sharks, which are known to frequent the harbour, on the other side of the island. The project of the memorialists does not go far enough. A tent or shed for dressing purposes and permission to bathe in Back Bay would be better than nothing, supposing the non-presence of sharks in the bay to be satisfactorily established; but a floating bath or a structure similar to that at Breach Candy would be better still, and indeed, unless sharks are clearly shown never to get access to the bay, some such protection would be absolutely necessary.

Yesterday in this column when speaking of the unpleasant results which might be expected to follow if the youth of the nation took to emulating the feat of Dr. Tanner, we said, or wished to say, that amongst those results would be a widespread cretinism, the brain power of the foolish starvelings being reduced to a minus quantity. The P. D. substituted "criticism" for "cretinism." Few authors would go the length of saying that the terms are synonymous.

A correspondent, writing from Chadarghat, Aug. 20, states, regarding the religious disturbance at Goolburga:—There has been a serious row in Goolburga between Hindus and Mahomedans, and the latter sect was the most outrageous. They entered the Hindu temple, sprinkled blood on the image of Hanuman—the monkey god of the Hindus—and threw out the idol. A company of the 3rd Regiment of the Regular troops left last night on the request of the authorities of the above place to check any more rising.

The annual consumption of Indian tea in England for some months past has been at the rate of nearly thirty-seven million pounds.

The annual report of the Soldiers' Total Abstinence Association for the year 1879-80 has just been issued. During the year 17 societies have been added to the roll and the membership has been increased by 1,335. There are now 128 societies with 9,002 members. The Temperance League in Bombay is said to be doing good service, but regret is expressed that the Presidency cities have no efficient organisation for educated natives. The report contains a table showing the excellent effect which temperance has in regard to the health and discipline of the army. The following statement is made by the Committee:—"In visiting our societies in Afghanistan, it soon became evident that drink was a fruitful cause of insubordination. There was hardly a camp between Peshawur and Kabul where soldiers had not been flogged for crime connected with drink. At Jellalabad the guard over the Commissariat rum store broke into the barrels and got incapably drunk, which led to a native sepoy guard being placed over the store, as the British soldiers could not be trusted over rum. Nothing is more fatal to steadiness under fire, and patience on the line of march, than a dram of rum, and whenever our soldiers have been without it they have always discharged their duties better than when they got it. The presence of rum in camp on active service is the source of all crime, discontent, and a very sure cause of a great deal of sickness. It neither nerves the soldier to fight with courage, nor to bear with patience the hardships of a campaign. On active service men often require a stimulant when deprived of their regular rations, and nothing better can be found than Liebig's extract of beef made in a few minutes; as water and fire can be procured in any part of the world."

Kabul is a much stronger place now than before the British occupation. The special correspondent of the *Statesman*, describing the evacuation, says:—The most casual observer could not fail to notice the improvements in Sherpore effected during our stay of nearly a year. Comfortable little houses and rooms have sprung up by scores in every direction; the Bemaru heights have been thoroughly fortified; stabling sufficiently commodious to hold far more cavalry than the Amir possesses has been built, two streams of water run right through the cantonment; the barracks have been rendered fit for occupation; and in fact we leave for his Highness the Amir a gigantic fortified encampment, instead of the filthy walled enclosure we found. But it is not so much in Sherpore itself that the fortifications have been improved and new ones erected; the fort on Siah Sung, commanding the city, could hold out as long as provisions lasted against Afghan troops; the Bala Hissar has been put in a proper state of defence; and the Asmai fortress is impregnable to all intents and purposes. The Amir has much to be grateful for that the Government has left these standing; and it is to be hoped he will make good use of them.

Two of our Calcutta contemporaries are crying out loudly for the removal of Sir Frederick Haines. The *Indian Daily News* says:—"He has made so many blunders that we think Lord Ripon will now fail in his duty if he do not show how greatly Sir F. Haines obstructs the way. Sir Frederick Haines, as holding a position second in importance to no military command in the world, deliberately lends himself, against good advice and strong remonstrances, to such an extraordinary and incomprehensible business as this march of Sir F. Roberts to Kandahar. It will be nothing singular if General Phayre beat Sir F. Roberts and arrive at Kandahar five or six days in advance of the division from Kabul. We shall then have the wonderful spectacle of the double relief of Kandahar; or General Phayre will relieve Kandahar first, and then relieve Sir F. Roberts; and in order to check and overcome Ayub Khan, with his army of 5,000 semi-regulars, 7,000 irregulars, 2,000 cavalry, and 37 guns, Sir F. Haines will have got together, at infinite expense, at the very fullest risk, and by the most extraordinary outrage on warlike science a force half as strong again as the enemy and four times as strong as the enemy's so-called regular troops. Truly, this a triumph which ought to secure Sir F. Haines a passage home in the first available transport." The *Englishman* observes:—"The Government of India has the advantage of two military advisers, the Commander-in-Chief and the Military Member of Council. It is impossible for those not connected with the Government to say how far it has been guided by the opinions of Sir F. Haines. If he is responsible for military movements since the war began, then all we can say is that the Government of India is extremely unfortunate in not having more competent advice. If not, then Sir F. Haines shows but slight regard for his own reputation in retaining a position which requires a stronger man."

A gentleman, who has lately travelled through China, writes to a Shanghai paper:—"Going south from the provincial capital, the growth of the poppy arrests one's attention. The production of opium is largely on the increase. A few years ago only solitary patches were to be seen now, in the country lying about 350 li south of Paoting Fu, the brilliant bloom of the flower, in its season, is a continually recurring sight. It is said that while a *mow* of land, at its best, will realize only about 10,000 copper cash worth of produce per year, the opium yield frequently reaches as much as 40,000 or 50,000 copper cash. If so, it is easy to see what must follow."

A recent act of the Queen has given much satisfaction to natives of India. The *Journal of the National Indian Association* extols:—"The exquisite good taste, the practical common sense, and sound judgment of Her Gracious Majesty the Empress-Queen of India, on the occasion of a recent Drawingroom, when, learning that the Misses Tagore of Bengal, who were to be presented, were of Indian origin, Her Majesty requested that they should appear in Indian costume. It seems that the oriental dress of the Misses Tagore subsequently met with the marked approval of the assemblage at the drawing-room, and the Queen honoured the ladies specially with the privilege of the private *entrée*."

The agitation for a change in the English Mail arrangements has been joined in by the Liverpool Chamber of Commerce, which has sent a memorial to the Secretary of State for India and the Postmaster-General, recommending "a return to the system whereby the arrival of the mails in London from the East took place earlier in the week, or that such other measures be adopted as will remove the existing grievances of which complaint is made, as well as amply facilitate postal communications with and from the East."

Regarding the Under-Secretaryship for India, which Reuter informs us Lord Roseberry has declined to accept, a London correspondent wrote by the last mail:—I understand that Lord Roseberry's state of health is such as to almost preclude him from accepting the post of Under-Secretary of State for India, which office is, however, I believe, still at his disposal, should he care to accept it. Failing Lord Roseberry, Lord Camperdown is regarded as the most likely successor of the Marquis of Lanedowne.

It was stated in London before the last mail left that "Mr. Gladstone and Lord Hartington have of late been thinking of the propriety of abolishing the offices of Governors of Madras and Bombay, and appointing in place of them Lieutenant-Governors of those provinces, who should be members of the Indian Civil Service. Nothing definite, however, has as yet been decided upon the matter."

Lord Derby is Chairman of the Royal Commission which has been appointed to enquire into the funds of the City Companies and into the way in which those funds are applied. Lord Sherbrook (better known as the Right Hon'ble Robert Low) is also a member of the Commission.

THE JOHN CONNON SCHOOL.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—In your issue of Saturday, speaking of the educational buildings in the hands of the Public Works Department, you say—"In the case of the John Connon School work has had to be suspended for want of funds." This is a mistake—the work is in full swing—the second floor is approaching completion, and the building will soon be ready for the roof. The mistake is chiefly that of the source whence you apparently got the information—the P. W. D. Administration Report for 1879-80—which is curiously incorrect. It says—"The John Connon High School * * * was in progress; the ground floor of the west wing and central feature have been almost completed; works *on the east wing* were suspended for want of funds." Now, the John Connon High School has neither west-wing nor east-wing nor "central feature;" and at the close of the financial year under report, not only the ground floor, but the first floor as well, had been completed, and the second floor was in progress. What the report states with reference to the progress of the John Connon School applies to the next on the list, the Cathedral School, and *vice versa*.

POSTAL ARRANGEMENTS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—Now that the Postal authorities are making arrangements to supply the public with stamped newspaper wrappers, may I offer a few suggestions?

The stamp of the lowest value in Indian postage is of half anna which is affixed on letters not exceeding half tola in weight. Letters exceeding half tola, and not exceeding one tola, require one anna stamp, and for every additional tola one anna stamp more. Now, if a letter weighs a little above one tola, it requires four half anna stamps, which otherwise would have passed with one anna stamp, had it weighed exactly one tola. What I would suggest is that for letters exceeding one tola, and not exceeding one and-a-half tola three half-anna stamps should be affixed, and for every additional half tola half-anna more.

Another thing I would suggest is the introduction of quarter anna stamp for letters not exceeding quarter tola in weight. We have postcards. But their introduction into India has put the Post Office to a little inconvenience and trouble, as many ignorant and illiterate people do not know the proper use of them.

Again, we have stamped envelopes, which save a great deal of trouble. A little alteration I would suggest in this, too. Would it not be better if we had note paper and the envelopes (cut out with the note papers) in one, with quarter and half anna stamps on the envelopes? I hope the Postal authorities will consider my SUGGESTIONS.

COMPULSORY EXILE.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—There seems to be an impression that those who are anxious to retire wish to give up work altogether. But the very smallness of the pensions which show that this is impossible. All that is required is that men may have something to start with, which, when supplemented by other work, will enable them to live in their own country after giving good slice of their lives to India. It is also felt that there should be a greater equality in the privileges of Europeans, *e. g.*, why should doctors and chaplains have to serve a much shorter time than others? or rather, why should men like Mr. Wordsworth have to serve longer? (for 15 or 17 years is quite enough). One thing is certain: if no chance of going is given, promotion should be fairly distributed.

The present plan of compulsory exile is bad in every way, and something must be done soon. One could not live on the Rs.13,000, which is given as a pension after thirty years, but if it was allowed after half that time, it would be possible to get something to *add* to it. To say "you can have a pittance when your health is so broken down that you can't do any work" is a farce. If nothing else is done, the mere withdrawal of the rule, which requires a medicial certificate, would be an improvement. In any changes that may be made, authorized leave should count, as it is taken at great expense for the sake of recruiting health. JUSTITIA.

P. S.—I see someone writes to the *Times of India*, saying that men should "save money" and not require pensions, but this is impossible unless the salary is large. If I had "Rs. 2,000 a month" I would not ask for any. It is to be hoped that Sir J. Fergusson will form his own opinion from *facts*, and rule that those whose salaries do not allow of saving should be allowed pensions. JUSTITIA.

ECCLESIASTICAL TITLES.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—Can any of your readers inform me whether the right of bishops of the Anglican Church to the title of "Lord" rests upon stronger grounds than the right of bishops of the Roman Catholic Church to the title of Monseigneur? The question of the right of Roman Catholic bishops to the latter title has recently been raised in France in consequence of Mr. Lambetta, in the *Chambre des Deputés* having spoken of Monseigneur Treppel as *Monsieur le Deputé Treppel* to the great indignation of the clerical party and the rest of the *anti-Gambettistes*. The incident has caused inquiry to be made which has resulted in the discovery that the title of Monseigneur was conferred upon Roman Catholic bishops upon themselves, in the latter part of the 17th century, as will be seen by the following passage in the *Mémoires de Saint Simon*:—"At a meeting of the clergy, the bishops, in order to have themselves addressed and called, in writing and speaking as monseigneur, passed a resolution to call and speak of each other by the title reciprocally. They only succeeded with the clergy and the lower classes of the laity. The world of Paris greeted the assumption of the title with shouts of laughter and ridiculed the presumption of the bishops in monseigneuring themselves. They nevertheless persisted in the practice and no declaration ever made by the clergy has been more scrupulously adhered to." In the course of time the habit of prefixing monseigneur to the name of all bishops became established. In the provinces the name of the bishop is never mentioned. He is simply referred to as "monseigneur." The question, however, was legally settled eighty years ago (15th July, 1801,) in France, by an Act declaring that "archbishops and bishops are at liberty to add to their names the title of *citoyen* or *monsieur*, but all other qualifications are interdicted." INVESTIGATOR.

AN EXPLANATION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—As my name appeared in your paper of this day's date in reference to a little matter adjudicated upon in the Court of Small Causes, I deem it but in justice to myself that the real facts should be disclosed and will thank you to insert these facts.

Before I left for England in 1878 the plaintiff accepted the note of a gentleman well known in Bombay, in lieu of the note sued upon which was an accommodating one on behalf of the said gentleman and which the plaintiff well knew.

I arrived in Bombay on Wednesday night. The plaintiff called upon me on the following day, and learning from him that he had not been paid, I asked him to call upon me on the Monday following when the gentleman who had given him the promissory note would meet him. He agreed to this.

To my surprise, however, on the following day a summons was served on me returnable on the following day.

I have paid him the amount of the note but under protest.

I had not the slightest idea of leaving Bombay for some time.

Thanking you for inserting these few lines, I am, Sir, your most obedient servant.

Bombay, Aug. 23. M. D. KAVANAGH.

Death of a Native Official at Jamkhandi.—Rao Bahadur Dhondo Krishna Kanetkar, State Karbhari of Jamkhandi, in the Southern Maratha Country, died at Jamkhandi on the 16th instant. The deceased was a pensioned officer of the British Government, in whose service he had risen to the Deputy Collectorship. His administration of the Jamkhandi State, extending in all over nearly four years, was worked by justice and moderation, as well as by many reforms. His death is, therefore, a grievous loss to the State. His corpse was carried to the river Krishna (six miles from Jamkhandi) and was accompanied there by many people.

Farm of the Customs of Zanzibar.—We understand that Mr. Tharia Topun, the well-known merchant of Zanzibar, has given up the farming of the customs of that island, which about four years ago he took up on a contract for a period of five years. He managed the business in a manner which gave entire satisfaction to the Sultan and added to the finances. A higher offer was recently made to the Sultan by another merchant; and Mr. Tharia having voluntarily waived his claim for the unexpired period of the contract, the Sultan was so much pleased that he gave him a handsome present. His Highness also gave him a certificate with his sign manual and seal, testifying to their friendly relations and Mr. Tharia's devotion to the interests of His Highness. We may mention that Mr. Tharia has a branch firm at Bombay, and was recently elected a member of the Bombay Chamber of Commerce.

Cricket.—Passee Cricket Club *vs.* The Hindoo Eleven.—Play in this match commenced on Sunday last at 10-30. The Hindoos won the toss and sent the Parsees in to face the bowling of Davidas and Lukhmidas. The first pair showed good defence and made 28 runs between them, but their successors were not so fortunate, and the 2nd, 3rd, and the 4th wicket fell at 32. Kapadia and P. Major then came to the fore and showed good cricket. The innings finally closed for 90. The Hindoos then went in, opposed to the bowling of Kapadia and A. Dadabhoy. The innings produced only 39 runs. With 51 runs to the good the Parsees went in a second time, but the Hindoos bowled and fielded very well and dismissed the whole elevenfor 59. With 111 runs to make to win, the Hindoos commenced their second innings. Two wickets produced only 6 runs, but then Bhende and Lukhmidas made a good stand and carried the score to 25, when another collapse ensued, and 4 wickets were taken at the cost of a run a piece. When the stumps were drawn for the day 30 runs only had been made for the loss of 6 wickets. Thus the Parsee Club won the match by 51 runs according to the first innings.

The Soham Samuha.—The fifth public anniversary of a social club named the Soham Samuha, came off on Sunday last in the Kirtikar Hall, Anant Rishi's Oart, when there was a large gathering of members and guests. The objects of the club are said to be these:—(*a*). To foster brotherly love and promote social intercourse between the members by meeting at tea gatherings, picnics, entertainments, &c., and by other judicious means. (*b*). To ameliorate their condition by gradually introducing necessary and practicable domestic and social reforms. (*c*). To cultivate their minds by writing essays and carrying on discussions on useful social subjects. Amongst the gentlemen who spoke at the anniversary meeting were Mr. Wasudeo Dhairyavan, barrister-at-law, and the Hon'ble Rao Bahadoor Gopalrao Hari Deshmookh. The Rao Bahadoor, in a short but instructive address, impressed on the audience the desirability of having social societies like the Samuha, which, he said, should be open to all castes and creeds, and in order to add to their popularity and usefulness, should give publicity to their proceedings. After the distribution of *pan*, rose-water, and tea, the meeting dispersed.

THE PERSIAN HAT IN THE HIGH COURT.

The fact is patent to residents of Bombay that there is no "regulation hat" among the Parsees. The old and orthodox section use a big round hat made of coloured cloth, folded round and round until it assumes a respectable bulkiness, and weight, with a peak on the right hand side of its base. A lighter article similar in shape and size, but varnished over, is used by another class who seem to think that the gleam of the head-dress adds to their personal attraction. The Kadmee Parsees, as distinguished from the Shenshahee Parsees, have a head-dress peculiar to themselves. It lacks the pyramidal shape of the former; has a broad round rim; and is covered all over with shawl cloth. Yet another kind of hat, somewhat similar to the Kadmee, is worn by many of the Parsee boys of the period. Recent improvements have assimilated it to a European hat, with the exception that it has a round rim and is low at the top, which is covered over generally with red or blue woollen cloth. There is no denying that among the Parsees of Bombay there are hats and hats. But an occurrence with regard to one of them took place at the High Court yesterday, which is sure to raise a howl among those whom it concerns. A young Parsee, dressed in a sort of half-European dress, with a hat of the improved fashion last mentioned—with the exception that the cloth on the top of it was dark instead of red or blue—entered the division court where the Chief Justice and Mr. Justice M. Melvill were hearing cases. The Parsee was not an idler, but went in to speak on some professional business to his vakil, Mr. Shantaram Narayen, who was engaged in a case before the court. The Chief Justice, on seeing the young man with his hat on, enquired as to his nationality and was informed that he was a Parsee. His Lordship is said to have remarked that the hat appeared to be a European hat; and that, being in court, he must remove it or remove himself. Mr. Shantaram, we learn, offered an explanation as to the varieties of the Parsee head-dress, but as it did not apparently satisfy his Lordship, and as the order was not altered, the young Parsee had no alternative but to leave the court against his will.

REVERSAL OF CONVICTION IN A CASE OF CULPABLE HOMICIDE.

The Empress of India *vs.* Nilapa Magdapa.

Mr. Nanabhai Haridas appeared for the Crown; and Mr. Shamrao Vithal for the prisoner, at the argument of the case before their Lordships on the 12th inst. The prisoner was committed for trial by Mr. J. Fairlie Muir, magistrate, Dharwar, and was charged before Mr. A. C. Watt, acting Sessions Judge, Dharwar, with culpable homicide not amounting to murder in causing the death of Peroo Bajea Saheb. Two native assessors assisted the Sessions Judge at the trial. The allegation for the prosecution was that Peroo went up a tree and took some mangoes which were in the accused's custody; that accused got angry and violently beat him; and that Peroo there and then died. The Sessions Judge found that the accused did beat Peroo, and that such beating caused Peroo's death. Differing from the two assessors

Two years' guarantee. Sent post free to every Station in India.

MESSRS. FAVRE, LEUBA & Co. beg to draw particular attention to the above watches, and confidently recommend them to every person who wants to buy a watch: CHEAP, STRONG, AND GOOD.

These watches are of moderate size, in an extremely well-made and tight-shutting German Silver case. The movement is protected inside by a glass dome.

The movement has a Patent Lever Escapement, built on the soundest scientific principles.

The watches are keyless, and the hands are set also through the keyless mechanism, so that there is no necessity of opening the watch.

The watches have a second hand.

The figures of the dial and the hands are left extra bold, so that the time can be seen instantly on a glance at the dial, and in nearly complete darkness.

The watch, as a whole, combines strength with all the conditions necessary to good time keeping.

This watch has proved a complete success as a CAMPAIGN WATCH, and its usefulness is recognised by the daily increasing demand from all quarters of our Army in the field.

To Shikaries, Sportsmen, &c., these watches will prove to stand any amount of rough usage and handling.

We guarantee riding will not affect the working of these watches.

We dare confidently say that these watches, if treated with ordinary care, and cleaned once every two years, will give a 15 years' good service.

Every watch is fitted in a wooden case, in which will be found a spare glass, and a spare mainspring.

We receive now regular shipments of these watches by each mail, and every order can for the future be executed by return post.

Only watches that have been examined and timed are despatched on orders.

2 years' guarantee. Packing and postage free.

WAR!!!
OH WORLD
OH MEN, WHAT ARE YE, AND OUR BEST DESIGNS
THAT WE MUST WORK BY CRIME TO PUNISH CRIME.
AND SLAY AS IF DEATH HAD BUT THIS ONE GATE
BYRON.

THE COST OF WAR.

"Give me the money that has been spent in war, and I will purchase every foot of land upon the globe; I will clothe every man, woman and child in an attire of which kings and queens would be proud; I will build a school-house on every hill-side and in every valley over the whole earth; I will build an academy in every town, and endow it a college in every state, and will fill it with able professors; I will crown every hill with a place of worship consecrated to the promulgation of the Gospel of peace; I will support in every pulpit an able teacher of righteousness, so that on every Sabbath morning the chime on one hill should answer to the chime on another round the earth's wide circumference, and the voice of prayer and the song of praise should ascend like a universal holocaust to heaven."—RICHARD.

WHAT CAN BE MORE TERRIBLE THAN WAR?

"I will tell you what is ten times, and ten thousand times, more terrible than war—Outraged Nature. She kills, and kills, and is never tired of killing till she has taught man the terrible lesson he is so slow to learn, that Nature is only conquered by obeying her. . . . Man has his courtesies of War; he spares the woman and the child. But Nature is fierce when she is offended, as she is bounteous and kind when she is obeyed. She spares neither woman nor child. She has no pity; for some awful but most good reason, she is not allowed to have any pity. Silently she strikes the sleeping child with as little remorse as she would strike the strong man—with the musket or the pick-axe in his hand. Ah! would to God that some man had the pictoral eloquence to put before the mothers of England the mass of preventable suffering, the mass of preventable agony of mind and body which exists in England year after year."—KINGSLEY.

CAUSES OF THIS STARTLING
ARRAY OF PREVENTIBLE DEATHS

FOR the MEANS of PREVENTION and for preserving Health, by natural means, see a large Illustrated Sheet, wrapped with each bottle of
ENO'S FRUIT SALT.

HOW to PREVENT DISEASE and PREMATURE DEATH by Natural means, use
ENO'S "FRUIT SALT."

WHAT EVERY TRAVELLING TRUNK and HOUSEHOLD in the world ought to contain—
A BOTTLE of ENO'S "FRUIT SALT."

WHAT such a simple precaution the jeopardy of life is immensely increased.
ENO'S FRUIT SALT.

THE NURSERY.

BRAIN FOOD in CHILDHOOD.

SLEEP.

HEALTH in CHILDHOOD.

FRESH AIR, and
ENO'S FRUIT SALT

PREPARED FROM SOUND RIPE FRUIT.

IMPORTANT to PARENTS.

SHOULD a parent have nothing to bestow on a child but a narrow education, still he will bless you if you form his body to health, and strength, and activity, whether he earns his simple meal by labour at the plough, anvil, or axe. On the contrary, if you neglect his health and strength, and leave him a debilitated wretch, he will curse you, though a millionaire.

ENO'S FRUIT SALT is an INDISPENSABLE REQUISITE in the PRESERVATION of CHILDREN'S HEALTH.

INJUDICIOUS DIET.

AS a gentle LAXATIVE or TONIC it is pleasant to the taste, and much superior to nauseous drugs; it corrects the ill effects of late hours, over-heating, or exhaustion, and is extremely beneficial in any feverishness or heat of the skin. Unlike other salines, instead of lowering the system, it invigorates its tone. The FRUIT SALT ought to be kept in every nursery, not only for use as a health-giving, pleasant,
COOLING, REFRESHING, and INVIGORATING BEVERAGE, but also as a convenient and valuable remedial agent. Colds, feverishness, fevers, inflammatory diseases, &c. Many fevers and other inflammatory diseases would be thrown off, or greatly modified, if the FRUIT SALT and a blanket bath were used at the outset.

In disorders of the stomach or of impure blood it is invaluable, for not the least of its recommendations is its resemblance to fruit in the natural way in which it relieves the system of effete matter, which, if retained, poisons the blood. Its advantage over fruit is that it can always be at hand when required: at the same time it is in every respect as harmless as the juices of ripe fruit, from which it has been obtained.

STIMULANTS and insufficient amount of exercise frequently derange the liver. ENO'S FRUIT SALT is peculiarly adapted for any constitutional weakness of the liver, a word of woe is avoided by those who keep and use ENO'S FRUIT SALT."—"All our customers for ENO'S FRUIT SALT would not be without it upon any consideration, they having received so much benefit from it."—WOOD BROTHERS, Chemists, Jersey, 1879.

ANY EMERGENCY.

IT ought to be kept in every bedroom, in readiness for any emergency, for under any circumstances its use is beneficial, and never can do harm.

"SUCCESS IN LIFE."—A new invention is brought before the public and commands success. A score of *obnoxious imitations* are immediately introduced by the unscrupulous, who, in copying the original closely enough to deceive the public, and yet not so exactly as to infringe upon legal rights, exercise an ingenuity that employed in an original channel could not fail to secure reputation and profit.—*Adams.* CAUTION.—Examine each bottle, and see the capsule is marked "ENO'S FRUIT SALT." Without it you have been imposed on by worthless imitations. Sold by all chemists. Price 2s. 9d. and 4s. 6d. Prepared only at ENO'S Fruit Salt Works, Hatcham, London, S.E., by J. C. ENO'S patent.

PROVISION FOR OLD AGE COMBINED WITH A PROVISION FOR THE WIDOW AND ORPHAN.

EXAMPLE.

A CIVILIAN, European or Native, aged 20 next birthday, wishes to lay apart a sum of about THIRTEEN RUPEES a month in such a way that his savings will be securely invested until the time of his retirement from Service; and that should he die beforehand, a provision will be secured for his relations. By payment of a sum of Rs. 163-0-0 per annum (or at the rate of about Rs. 13-0-0 per mensem) as the premium for an endowment Assurance, he will become entitled to Rs. 5,000 on attaining age 55; and should he die before attaining that age—even after payment of only one year's subscription—the full sum of Rs. 5,000 will be paid to his representatives. [Vide Table III. of Prospectus].

THE SAME PROVISION, IF COMMENCED

at age 25 would cost about	FIFTEEN RUPEES	a month;
at age 30	"	"	about EIGHTEEN RUPEES a month;
at age 35	"	"	about TWENTY-ONE RUPEES a month;
at age 40	"	"	about TWENTY-EIGHT RUPEES a month;
at age 45	"	"	about FORTY-ONE RUPEES a month;

The rates for other Ages, also for Endowments payable at Ages 45, 50, and 60, and all further information, may be obtained on application Premiums can be paid half-yearly, quarterly, or monthly, at slightly increased rates.

There is an obvious advantage in effecting Investments of this nature *early in life*:—by delay the rate of subscription increases:—death may occur before the intended provision is made:—or health may fail and render the life ineligible for Assurance.
